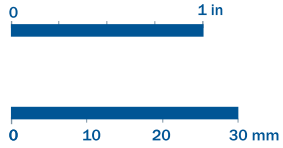
RING SIZE CHART

CHECK YOUR CHART

FIRST MAKE SURE YOUR PRINTED PAGE IS ACCURATE FOR SIZING

Sometimes printers enlarge ot reduce when they print, so that this chart might not be accurate. To ensure accuracy, follow these instructions exactly.



Before printing, make sure Page Scaling is set to "None" on your print dialog box. (Press CTRL+P to open your print dialog box.)

Measure the bar on the left. Make sure it measures exactly 1 inch or 30mm long. You can also make sure a US quarter fits exactly over the coin shown. It should hang over or be smaller than shown.

THEN

FIND YOUR SIZE

1 Find a ring that already fits your finger. For engagement and wedding rings, in the United States, this is traditionally the ring finger on your left hand.

2 Then set the ring on the chart below. Find the size where the inside edge of your ring lines up perfectly with the circle.

3 If the your ring is between two sizes, choose the larger size.
